# PROPOSAL COLLABORATION

## The Sound of Story

*“A Storytelling Experience of Listening, Creation & Homecoming”*

by Rangga Firmansyah (Mr. Birdflute)

***The Sound of Story*** is an immersive storytelling and creative art experience that brings together sound, imagination, and reflection.

Through flute music, nature-inspired tales, and a hands-on creative process, this trilogy invites children and families to listen deeply, create meaningfully, and reconnect with the wonder within.

Each session is not only a story to be heard but also an art journey — where participants transform inspiration into tangible creations, shaping their own *birdflute* and discovering how breath, sound, and imagination become one.

# **The Trilogy of Listening, Creation and Homecoming**

## **I. LISTENING – “Whispers of the World”**

Step into a world where stories breathe and nature speaks.

Through flute, silence, and wonder, Mr. & Mrs. Birdflute guides participants to rediscover the art of listening — to the world, and to their own hearts.

Duration : 30 minutes

## **II. CREATION – “The Birdflute Workshop”**

Shape your story with your hands. Participants create and decorate their personal *birdflute*, awaken its voice, and feel how imagination turns breath into life.

Duration : 60 minutes

## **III. HOMECOMING – “The Circle of Wonder”**

Return to what truly matters. Together we play, share, and celebrate — finding that home is not a place, but the harmony we build through sound and connection.

Duration : 30 minutes
